Crystal Buff

Edgeless microfibre cloth

APP for AD Crystal Buff is an edgeless microfibre cloth designed for precision detailing work where the cleanliness and safety of the surface being cleaned are essential. Its white, undyed structure prevents dye from transferring from the microfibre to the cleaned parts. This is particularly important when caring for light-coloured surfaces and cleaning leather upholstery, where unwanted discolouration of the leather can be a problem.

The edgeless finish reduces the risk of accidentally scratching the surface during work, and the 360 g/m² weight provides the right softness and comfort of use. The cloth is ideal for cleaning and caring for leather, buffing off products, and removing residue of quick detailers, waxes and other detailing products.

ADVANTAGES:

- UNDYED MICROFIBRE – NO RISK OF DYE TRANSFER
- EDGELESS FINISH REDUCES THE RISK OF SCRATCHES
- IDEAL FOR CLEANING AND CARING FOR AUTOMOTIVE LEATHER
- SAFE ON LIGHT-COLOURED AND DELICATE SURFACES
- HIGH WEIGHT ENSURES SOFTNESS AND WORKING COMFORT
- REMOVES QUICK DETAILER AND WAX RESIDUE
