# LEATHER PRIMER

Leather primer to increase the adhesion of base lacquers from the APP for AD Leather Color system to the surface. Particularly recommended for oily and hydrophobic leathers.

220965

APP for AD Leather Primer  
- Primer for leather

200 ml

# LEATHER HARDENER

Hardener for use with APP base coats for AD Leather Color and APP top coats for AD Leather Top Coats. It improves the abrasion and scratch resistance of varnishes

220967

APP for AD Leather Hardener  
- Leather varnish hardener

30 ml

# LEATHER SOLVENT

An organic solvent for leather varnishes used only before the intention to re-dye the leather. It removes old, improperly adhered coatings. The product washes off old impregnations, protective layers and colorless coats from leather surfaces.

220968

APP for AD Leather Solvent  
- Leather varnish solvent

200 ml

# LEATHER TOP COAT

APP for AD Leather Top Coat for use on natural grain leather, smooth leather, synthetic leather and plastics, available in two finishes – matt and gloss. Depending on requirements, they can be mixed in any proportion, giving the surface an ideal finish from deep matt to high gloss.

220970	APP for AD Leather Top Coat Matt - Clear varnish for leather, matt	200 ml
220972	APP for AD Leather Top Coat Gloss - Clear varnish for leather, gloss	200 ml

# LEATHER FILLER

Two types of leather filler – liquid and cream. Depending on the needs and type of damage, they are used as fillers for face cracks, cuts, fissures, scratches and cavities. Once the cavities have been filled, they remain flexible without changing the properties of the skin.

220975	APP for AD Leather Filler Light - Liquid filler for leather	50 ml
220977	APP for AD Leather Filler Heavy - Cream filler for leather	50 ml
