

APP Poly Plast Finisher

Universal fine-grained putty

APP No. 010570, 010571, 010572

APP Poly Plast Finisher - Universal two-component, filling, polyester putty with silky smooth finish. Can be used as a finishing putty. Designed for filling dents and final surface levelling during car body repair and refinishing. It is characterised by high elasticity and mechanical resistance.

It has very good adhesion to many substrates: steel, galvanised steel sheet, aluminium, glass fibre reinforced polyester products, two-component fillers, polyester laminates and old OEM coatings.

ADVANTAGES:

+	CHANGES COLOUR DURING THE DRYING PROCESS	+	EASY APPLICATION	+	VERY SHORT DRYING TIME	+	NO TENDENCY TO FORM PINHOLES
+	VERY GOOD SANDABILITY	+	CAN BE USED AS A FINISHING PUTTY	+	LOW DENSITY
