

APP Klarlack X Gloss

Two-component acrylic clearcoat

APP No. 020251, 020252

APP Klarlack X Gloss 2:1

- Two-component, quick-drying, colourless HS-class acrylic clearcoat, characterised by increased scratch resistance and very high gloss.

Its short drying time makes it suitable for repairing typical urban damage, individual components and sets of components. The lacquer is easy to apply and polish.

It provides a very high level of finish and, thanks to the use of UV filters, protects and extends the durability of the base coat colour.

It can be used with water-based and conventional base coats.
