

APP UV Primer Filler

UV-Cured Primer

APP No. 020480

APP Primer Filler is a single-component, fast-drying, UV-cured primer designed for small and medium-sized repairs, e.g. SPOT / SMART repairs. It significantly reduces drying and repair time. It has excellent adhesion to all types of metal, polyester fillers and old paint coatings. It is designed for classic sanding applications. The product is ready to use.

APP UV Primer Filler
