

• APP Kunststoff Ref Primer Spray Plastic primer

Elastic, quick drying, one-component primer that improves adhesion of basecoats and top coats. It features with very good adhesion to substrate, elasticity and easy application.

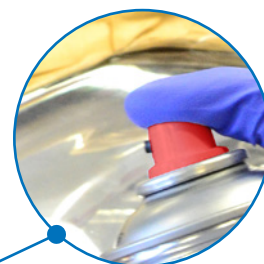

ADVANTAGES:

- Transparent, used as adhesion agent during headlights renovation before application of top coat.
- Thanks to advanced formula, there is no undesired reaction of primer with headlight Polycarbonate surface, also in case of thick coat. **IT DOES NOT CAUSE CRACKING** of applied coat.

APP Product

Other product

Special wide nozzle ensures jet similar to one produced with standard spray gun.

PURPOSE: for any plastic elements including: ABS, EMT, EP laminate, HP-Alloy, PA, PBPT, PC, POM, PP/EPDM, PPO, PVC, hard and soft PUR.
