

APP Primer Epoxy Fast

Fast-Drying Anti-Corrosion Epoxy Primer

APP No. 021203-021204

APP Primer Epoxy Fast is a fast-drying, chromate-free epoxy primer for wet-on-wet application. It contains zinc phosphate as an anti-corrosion pigment, which provides active protection against corrosion.

It adheres well to steel, aluminium and galvanised surfaces. It flows out easily and dries quickly, so the next coat – e.g. APP AcrylFiller HQ Fast acrylic primer – can be applied after just 20–30 minutes.

PROPERTIES:

- Colour: RAL 7033, olive grey
- Mixing: 1:1 by volume with APP Hardener Primer Epoxy Fast
- Coverage: 13.0–13.5 m²/l at a dry film thickness of 25 µm
- Pot life: approx. 4 h at +20°C
