

# APP U300 UBS Spray

Preparation for car body protection

APP No. 050207, 050208

APP U300 UBS Spray is a fast-drying, long-lasting elastic spray compound. It protects the surface of the car body against stone and gravel impacts. It has soundproofing, insulating and anticorrosive properties. The resulting low-structural effect coating can be overcoated with any type of topcoat. Does not contain bitumen or asphalt.

Available in two colours:

- black - APP No. 050207
- grey - APP No. 050208

# APP U300 UBS Spray

Preparation for car body protection

## APPLICATION:

- To reproduce the original OEM finish
- For corrosion protection of car body sheets
- For the protection of painted car body surfaces against stone impacts
- For protecting spoilers, sills, wheel arches, mudguards and underbody against damage from stone chippings, sand and salt
- As soundproofing compound for bus and car chassis.

## ADVANTAGES

The product is simple and versatile in its application.

Once dry, ready for varnishing.

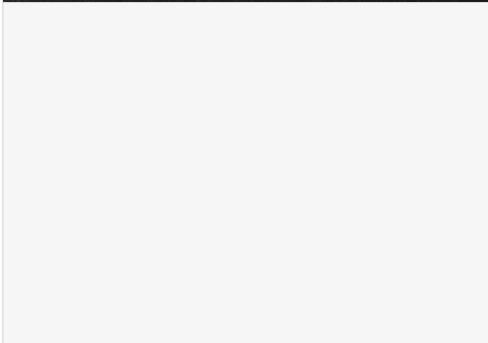

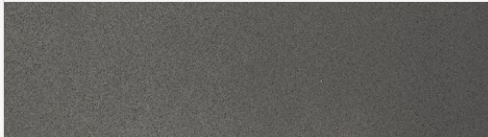

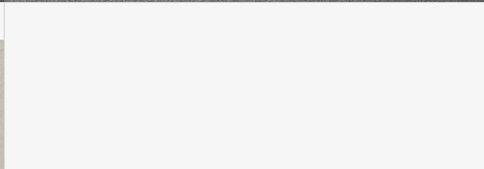

No specialist instrumentation is required.

When dry, it has a slight texture.

Soundproofing, insulating and anti-corrosive properties.
