NTools KSC 50 Ceramic sanding discs d50

NTools KSC 50 - High-performance sanding discs with hook-and-loop and ceramic coating. The backing is reinforced paper. Suitable for machine sanding of polyester (putty), acrylic (primer, topcoat) and polyurethane (primer, topcoat) surfaces with electric and pneumatic sanders, e.g. NTools PSM50 (139200N).

APPLICATION:

wood	metal	aluminium
structural steel	acid-resistant steel	stainless steel
tool and hardened steel	plastics	

ADVANTAGES:

Small disc size

Allows precise processing of hard-to-reach areas

Ceramic grain

Allows for fast and efficient working

Low operating temperature

The disc does not heat up and does not discolour the workpiece surface
