

APP White Tape

UV-resistant masking tape

APP Nr 070261 - 070266

APP White Tape is a self-adhesive varnish masking tape resistant to high temperatures made of impregnated semi crepe paper with glue based on natural indian rubber and additives. Designed to work in spray painting with high temperature drying cycles up to 110°C / 230°F. It ensures perfect adhesion to the surface to be covered, simple and clean removal, high resistance to varnishes, primers and primers containing organic thinners as well as typical organic and water-based base varnishes. Suitable for short-term outdoor use up to max 3 days ensuring easy removal with no glue trace.

FEATURES:

Width available:
18, 24, 30, 36 and 48 mm.

UV resistant.

Great adherence.

Resistant to 110°C (230°F) temperature.

Surfaces:

LACQUERS
(VARNISH)

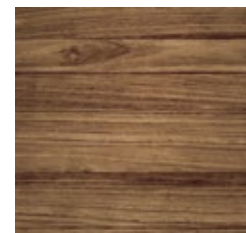

GLASS

PLASTICS

RUBBER

WOOD
