

# APP FE Mask

Varnish masking film

APP No. 070520, 070521, 070522

Varnishing film is used for masking undamaged parts of the car body and windows during spraying primers and topcoats. It protects them from contamination.

Wide (4 or 5.8 m) film allows one person to cover the entire car very quickly and thoroughly.

## MAIN FEATURES:

Adapts very well to the shape of the car body.

Resistant to moisture and high temperatures.

Electrostatic.

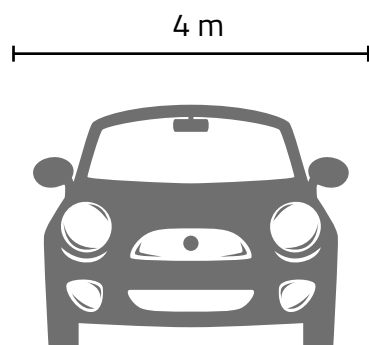

The surface of the masking film is resistant to peeling of spray applied primer, basecoat, and topcoat.

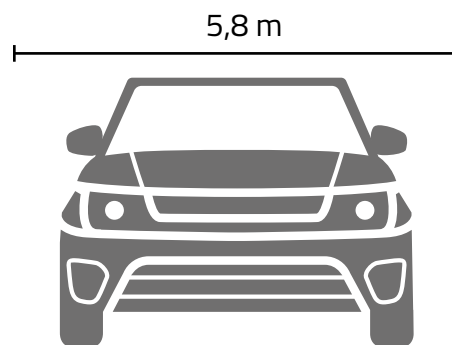

# APP FE Mask

Varnish masking film

Width suitable for segments A-C.

Width suitable for cars in the D segment upwards.

## Application:

The masking film should be applied only to a dry car body.

If the paint surface is wet or damp, wipe it dry. If the film is left for too long on wet or especially heated paint surface, marks may appear on the car body due to water evaporation.

THE CORRECT POSITIONING OF THE FILM ENSURES THE LEGIBILITY OF THE FOLLOWING INSCRIPTION: **APP FE MASK**
