## APP Plush Towel

### Microfiber cloth for drying car body

The APP Plush Towel is an ideal solution for thorough and efficient drying of a car's body surface. Very fluffy and exceptionally absorbent material ensures effective work without leaving smudges and scratches during drying. The large surface and high quality of manufacturing make the cloth perfectly absorb water, and it proves efficient wherever absolute gentleness is required. The increased content of polyamide in the material increases the mechanical resistance of the cloth, which translates into its longer life. The dense bristles of the APP Plush Towel easily remove the residues of polishing pastes used in the automotive industry. It is also used for lapping waxes and "quick detailers" in detailing finishing works.

#### TECHNICAL DATA:

- grammage: 1200g/m<sup>2</sup>
- material: 70% polyester, 30% polyamide

#### ADVANTAGES

+	HIGH GRAMMAGE.	+	VERY ABSORBING.
+	BIG SIZE.	+	FLUFFY WITH THICK HAIR.
		+	HIGH GRADE MATERIAL.
