## RUPES Big Foot

### Polishing paste UNO PROTECT

RUPES UNO PROTECT is a polishing and protective paste in one, designed for removing minor to moderate defects.

It leaves the surface polished to a high gloss with a protective layer. A special mixture of modern abrasives and filling compounds with Carnuba wax, which can be applied by machine or by hand. Uno Protect quickly removes surface defects, leaving behind a durable polymeric protective layer for up to 60 days.

Uno Protect is instant results with minimal effort – it is ideal for instant detailing, especially in workshops with a large number of customers, as well as for used car restoration.

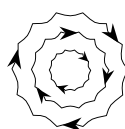

## HIGH GLOSS AND PROTECTION

Recommended for polishing machines:

rotating

planetary

oscillating-rotating

### ADVANTAGES

|   |   |   |                                      |   |   |
