

# NTools RP 150E Pro

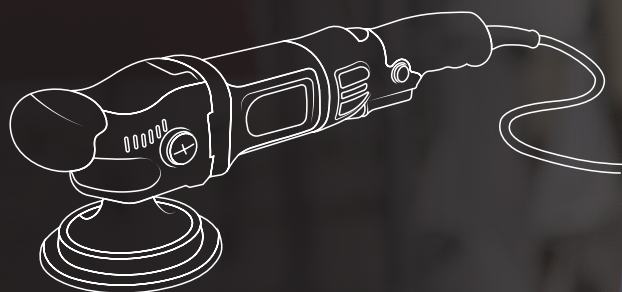

## Professional Rotary Electric Polisher

APP No. 126010

NTools RP 150E Pro professional rotary electric polisher provided with soft start and rotational speed control within range 800-3300 RPM.

Features with high performance engine 1000W provided with electronic rotational control that ensures stable rotational speed also under big load.

Fitted with M14 threaded working disk  $\varnothing 125$  mm.

### FEATURES:

Modern, high performance engine 1000W.

Speed 6 settings, smooth rotational speed control along with soft start.

Low vibration and low weight  
– tylko 2,5 kg.

Conformity with European Standards and CE certification.

# NTools RP 150E Pro

## Professional Rotary Electric Polisher

**NTools**

Design:

**1 Robust, ergonomic and balanced body**  
- To ensure comfort during polishing.

**2 Rubberized body elements**  
- To ensure strong grip during polishing and prevent body wear.

**3 Speed 6 settings**  
- For smooth rotational control during operation.

**4 Elastic, silicon power cable**  
- To prevent kinking and damage.

**5 High quality disk**  
- Velcro mounted M14 threaded dia.  $\varnothing$ 125 mm.

**6 Progressive button**  
- To ensure rotational smooth control during operation – useful during works related to edges of elements.

**7 Interlock switch**  
- To ensure continuous operation without pressing the button.

**8 Air vents provided with protective metal mesh**  
- To provide required cooling and prevent dust penetration and contamination of commutator and electric system.

**9 Additional D type handle**  
- With angle adjustment to ensure comfort during polishing of vertical and horizontal surfaces.

Each polisher carries an **INDIVIDUAL SERIAL NO.**  
*indicated on rating plate*

Polisher with rotation smooth control

### TECHNICAL DATA:

Power	1000 W	1400 W
Rotational speed	800-3300 RPM	500-3000 RPM
Electronic rotational control	YES	YES
Soft start	YES	YES
Max. size of pad	150 mm	180 mm
Polishing pad	NO	YES (ø150 mm)
Working disk	YES (ø125 mm)	NO
Disk/pad mounting	M14	M14
Shaft interlock	NO	YES
Side handle	NO	YES
D type handle	YES	NO
Weight	2.50 kg	3.20 kg
Power cable	4 m (red, silicon)	5 m (red, silicon)
Bag	YES	NO

### CAUTION!

Each NTools RP 150E Pro polisher is delivered along with zipped bag that features with 6 inner and 8 outer pockets with enough space for the polisher, sponges, pads, compounds, microfiber clothes and other accessories required during works related to polishing.

## Professional Rotary Electric Polisher

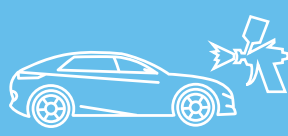

### SET INCLUDES:

- electric polisher along with backing disk  $\varnothing 125$  mm,
- zipped polisher bag,
- D type handle along with screws and washers,
- chuck Allen key,
- flat key dedicated for working disk,
- carbon brush set,
- user manual.

### USE:

- polishing of different type painted surfaces,
- polishing upon removal of defects,
- works related to top coat,
- finishing works in furniture and boat building industry.
