

APP No. 126041, 126042

NTools DAP III 15B / 21B are advanced, professional brushless dual-action eccentric polishers, designed for maximum efficiency and complete freedom of movement. Powered by a high-capacity 5000 mAh lithium-ion battery, these machines eliminate the restrictions associated with a power cable, ensuring comfortable working anywhere in a paint shop or detailing station. The polishers are fitted with an electronic speed stabilisation module, which guarantees a constant operating speed even under heavy load. The polishers are available in two stroke lengths: 15 mm and 21 mm, allowing the tool to be perfectly matched to the specific requirements of the job.

**FEATURES:**

No cable restrictions thanks to battery power

6-step speed control with soft start

Low vibration and light weight

The CE marking ensures that the polisher complies with European standards

DAP III 15B / 21B

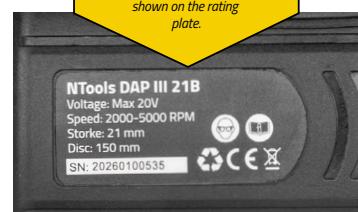

Cordless Dual Action Polisher

Construction:

NTools

- 1 Solid, ergonomic, well-balanced body**
- ensures comfort while polishing.
- 2 Rubberised housing elements**
- improve grip while polishing and protect the body from damage.
- 3 6-step speed controller**
- allows smooth speed adjustment during operation.
- 4 High-quality backing plate**
- hook-and-loop, diameter
ø125 mm (DAP III 15B),
ø150 mm (DAP III 21B)
with key fitting
and M8 screw
- 5 Battery capacity 5000 mAh / 18.5 V**
- ensures mobility and improves working comfort.
- 6 Switch lock**
- keeps the machine running continuously without having to hold the trigger.

Every polisher has a
**UNIQUE
SERIAL NUMBER**
shown on the rating
plate.

DAP III 15B / 21B

Cordless Dual Action Polisher

KIT CONTENTS:

- Polisher with selected stroke
- Hook-and-loop backing plate (d125 or d150)
- Battery
- Charger
- Carry bag
- Allen key
- Operating manual

APPLICATIONS:

INDUSTRIES			
PAINTING AND VARNISHING	CAR DETAILING	FURNITURE-MAKING	BOATBUILDING

ADVANTAGES

+ FAST DEFECT REMOVAL the combination of eccentric motion with a 15 mm or 21 mm stroke removes scratches and holograms extremely effectively.	+ FULL SPEED CONTROL – the electronic 6-step speed control module allows smooth adjustment across a wide range from 2000 to 5000 rpm.	+ PRECISE SOFT START – the electronically controlled soft start brings the machine smoothly from zero up to the set speed, which is indispensable for precision polishing.
+ OPTIMAL COOLING AND VERSATILITY – ventilated hook-and-loop backing plate (125 mm on the DAP III 15B and 150 mm on the DAP III 21B, attached with a key and M8 screw).	+ ERGONOMICS AND LIGHT WEIGHT – the low weight of the tool minimises hand and arm fatigue, ensuring comfort even during long polishing sessions.	+ MOBILITY WITHOUT COMPROMISE – battery power gives complete independence from power sockets and tangled cables, improving safety and working ergonomics.
