NTools PW – Pneumatic drill

NTools PW is a lightweight pneumatic drill designed for professional sheet metal, shop, industrial, assembly and carpentry work. It is suitable for long-term heavy-duty work, including drilling, honing and sawing holes in steel, cast iron, bronze, copper, light alloys, plastics, and wood. Ideal for use in spaces with limited room to maneuver.

High performance air motor for low noise and vibration. Pistol-style, ergonomic design and rubberized handle provide comfortable work and a secure grip. The quick-change, self-clamping drill chuck allows easy and quick replacement of drill bits, cutters or discs on the shank.

ADVANTAGES

<p>+ SMALL SIZE AND LIGHTWEIGHT HOUSING - for working in hard-to-reach places.</p>	<p>+ EFFICIENT MOTOR WITH A SIMPLE CONSTRUCTION - resistant to wear.</p>	<p>+ MULTI-STAGE PLANETARY GEAR - for constant speed and power at start-up.</p>	<p>+ JACOBS® SELF-CLAMPING HANDLE - Self-clamping jacobs® handle for quick drill, cutter, and arbor changes.</p>
<p>+ HIGH ROTATIONAL SPEED - The drill has a speed of 3200 rpm which makes drilling fast and efficient.</p>	<p>+ REVERSIBLE ROTATION FUNCTION (LEFT/RIGHT) - by means of a convenient switch at the trigger.</p>	<p>+ LOW NOISE LEVEL - thanks to the air outlet silencer in the handle.</p>	<p>+ LOW AIR CONSUMPTION - Only 113 l/min - makes it possible to use a compressor with a lower efficiency.</p>

TECHNICAL DATA:

Working pressure	6,3 bar	Power	0,33 kW
Air consumption	113 l/min	Drill handle (JACOBS®)	3/8" (10 mm)
Idling speed	3200 RPM	Noise level: idle/running	89/100 dB(A)
Compressed air quick connector	1/4" (gw. zewn.)	Length	185 mm
		Weight	1,15 kg

THE SET CONTAINS:

- pneumatic drill,
- compressed air quick connector 1/4" external thread,
- oil for pneumatic devices (30 ml),
- instruction manual.

COMPATIBLE WITH:

- NTools RDS ON (350490) and NTools DRS 1N (350491) cobalt-steel reamers (cutters) for spot removal of welded joints of car body sheets.
- The arbor (06X900) is ideal for use with abrasive discs (06X100, 06X150, 06XC115).

NTools PW – Pneumatic drill

COMPOSITION

1. SAFE AND ERGONOMIC DESIGN.

To minimize hazards and increase comfort.

2. ROBUST AND COMPACT HOUSING.

Made of hard materials resistant to garage conditions. Small size and slim design allow for work even in hard to reach places.

3. REVERSING GEAR.

Located next to the trigger, it allows you to easily change the direction of rotation (left, right) using one hand.

4. SELF-CLAMPING HANDLE (JACOBS®).

This allows the drill, cutter, or shank disc to be changed quickly.

5. AIR OUTLET SILENCER.

Located in the handle, it provides air exhaust and reduces noise levels.

6. RUBBERIZED HANDLE.

Guarantees a secure and comfortable grip and improves safety during work.

APPLICATION:

- body shops and services,
- vehicle disassembly stations,
- wherever there is a need to cut sheet metal, aluminum, or other materials, such as rubber or plastic.

Compliance of the device with the requirements for mechanical devices:
89/392/EEC, 91/368/EEC, 93/44/EEC, 2006/42/EC,
ISO 8862-1 - vibration measurement,
PNEUROP 8N-1 – sound pressure level.
