

Dust extractor with electric-pneumatic switch

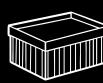

**APP No. 140040**

The NTools VC 40EP mobile dust extractor is an advanced device offering automatic filter cleaning and synchronization with pneumatic and electric tools. The device has been designed for use in body shops, furniture manufacturing, construction, and interior design.

The extractor combines high, adjustable suction power, a large capacity tank, and the ability to work in dry and wet conditions, making it an indispensable tool for manufacturing, professional services, and intensive hobby use.

**FEATURES:**

The powerful 1600 W motor ensures maximum stability and control of the device during operation.

Filtration class M combined with a HEPA filter ensures comprehensive health protection and air purity.

The automatic filter cleaning function ensures continuous operation, eliminating the need for manual cleaning of the device during dust removal.

The CE marking ensures that the extractor complies with European standards.

# NTools VC 40EP

Dust extractor with electric-pneumatic switch

Design:

**NTools**

**1** Comfortable large folding handle for guidance

**2** Pneumatic connectors with standard EURO 7.2 profile

**3** Four operating modes - manual and automatic, with or without filter shaking. In automatic mode, the device switches on when pneumatic or electric tools are started, and switches off with a delay of 3 to 5 seconds after the end of operation.

**4** Flexible silicone power cord

- with a length of 5 m allows for free movement around the body shop and paint shop.

**5** Suction power adjustment

**6** 2000 W power outlet for power tools

**8** Capacity 40 L

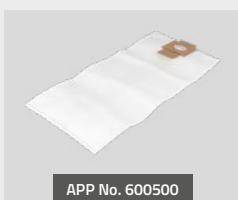

**7** 2-in-1 hose

- length 5 m, inner diameter 29 mm, outer diameter 35 mm.

**9** Two front swivel wheels

Accessories for the NTools VC 40EP extractor available from APP:

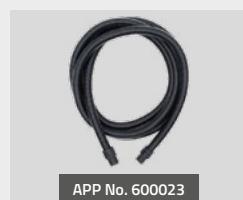

APP No. 600500

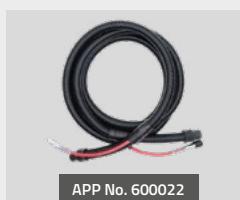

APP No. 600503

APP No. 600506

APP No. 600023

APP No. 600022  
NTools WOP 5  
2-in-1 hose for electric-pneumatic vacuum cleaners

# NTools VC 40EP

Dust extractor with electric-pneumatic switch

## Technical data:

**APP Nr 140040**  
**NTools VC 40EP**  
**Dust extractor with electric-pneumatic switch**

Supply voltage	220-240 V / 50-60 Hz	Switching from pneumatic machines	Yes
Power consumption	1600 W	Operating mode switch	Yes
Socket for power tools	2000 W	Suction hose diameter	29 mm
Noise level	< 80 dB(A)	Length of suction hose	5 m
Air flow	2,4 m <sup>3</sup> /min	Power cord length	5 m
Max. vacuum	>22 kPa	Tank capacity	40 l
Degree of protection	IPX4	Number of circles	4 (2 front swivel)
Filtration	Class M	Suction power adjustment	Yes
Automatic filter cleaning	Yes	Comfortable large folding handle for guidance	Yes
Switching from electrical machines	Yes	Net weight	16 kg

## ADVANTAGES

<b>AUTOMATIC FILTER CLEANING</b> - provides constant, high suction power without interrupting operation thanks to automatic filter cleaning.	<b>SYNCHRONISATION WITH TOOLS</b> - The extractor starts automatically when the equipment is connected and switches off with a delay in order to clean the duct.	<b>BUILT-IN ELECTRICAL SOCKET UP TO 2000W</b> - The panel power supply enables direct connection of power tools without the use of extension cords.
<b>DRY AND WET OPERATION</b> - The design of the device allows for the effective removal of both dry dust and liquids.	<b>STANDARD PNEUMATIC CONNECTORS</b> - The EURO 7.2 profile (RECTUS 26KA) ensures compatibility with a wide range of pneumatic tools.	<b>ADJUSTABLE POWER AND LARGE TANK</b> - High suction power and large capacity make the extractor ideal for intensive work.

When purchasing the dust extractor, you receive the following in the set:

APP No.	Product name	Quantity
140040	NTools VC 40EP - Dust extractor with electric-pneumatic switch, 1600 W, 2-in-1 hose 5 m, 40 L	1 pc
600500	NTools WFM 40 - Fabric dust bag for NTools VC 40EP extractors, Class M, White, 40 L	1 pc
600506	NTools FH 40 - Hepa main filter for VC 40EP, Class M	1 pc
600022	NTools WOP 5 - 2-in-1 hose for electric-pneumatic extractors, d29/35	1 pc
