

APP nr 150409

APP KA PSK

Aluminum universal cork for manual grinding of inclusions.

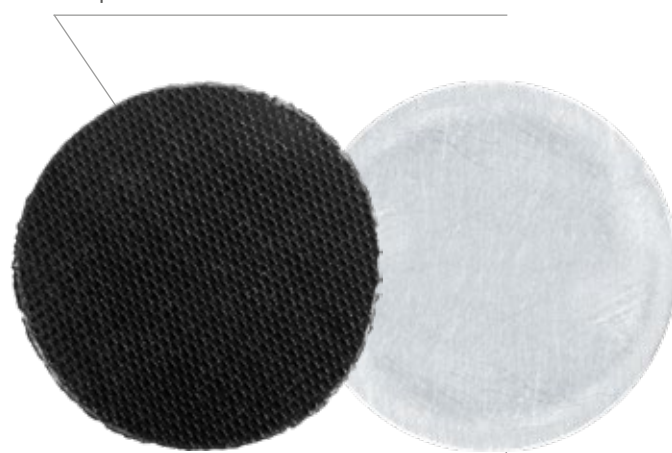

KA PSK aluminum cork for manual grinding of inclusions. In combination with adhesive-backed or Velcro-backed abrasive pads, it precisely removes defects in the topcoat paint (dust inclusions and small damp patches).

TECHNICAL DATA:

ELASTIC SIDE WITH MICRO VORTEX

adapted for Velcro flakes

HARD SIDE

for adhesive flakes

PROPERTIES:

- **Durable and strong** - thanks to the use of aluminum.
- **Comfortable and handy** - the special shape of the stopper allows for a secure grip and easy handling.
- **Universal** - works with adhesive-backed abrasive pads (40PSK, 40MX) and Velcro-backed (40MXR).
- **Safe** - thanks to the use of micro Velcro, the risk of unwanted scratches during sanding with Velcro pads is completely eliminated.
