

APP Nr 170160

NTools MR 400 is a machine designed for manual filling (charging) of spray cans (e.g. APP Pre Fill Gas Spray) with a volume of 400 ml, with lacquer of a maximum capacity of 100 ml.

The housing is made entirely of powder-coated steel and the arm, head and disc are zinc-coated. It is equipped with a special head with a piston and a universal tip, which allows filling cans with 'male' or 'female' type sockets.

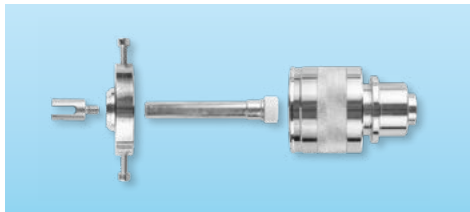

NTools MR 400

Hand operated spray nozzle machine 400 ml
