

APP No. 170512

**NTools L3S** is a functional and robust workshop trolley, designed for intensive use in workshops, services and garages. Made of robust steel, it offers a high load capacity (up to 100 kg) and resistance to mechanical damage. The powder-coated construction guarantees durability and protection against corrosion.

The trolley has three deep shelves with ribbing to stabilise the stored tools during transport. The middle shelf can be mounted on one of three levels to better adapt the space to individual needs.

Four fully swivelling, bearing-mounted wheels - two of which have brakes - ensure that the trolley can be moved smoothly even with heavier loads and that it can be positioned safely in the desired location.

### TECHNICAL DATA:

Total load capacity of trolley		100 kg
Dimensions of the trolley	Height	740 mm
	Width	350 mm
	Length (with handle)	730 mm
Dimensions of a single shelf	Height (edge)	50 mm
	Width	350 mm
	Length	660 mm

APPLICATION	
GARAGES AND DOMESTIC SPACES	INDUSTRY AND PRODUCTION
MECHANICAL, SERVICE, BODY AND PAINT WORKSHOPS	

### ADVANTAGES

+	<b>ROBUST STEEL CONSTRUCTION</b> – Damage-resistant, 100 kg total load capacity.	+	<b>THREE SPACIOUS SHELVES WITH RIBBING</b> – prevents tools from slipping, the middle one can be mounted at 3 heights.	+	<b>SMOOTH GUIDANCE</b> – thanks to four fully swivelling, bearing-mounted wheels.
	<b>STABILITY DURING OPERATION</b> – two wheels equipped with double brakes (locking in two axes) to lock the trolley.		<b>CORROSION RESISTANCE</b> – powder coating ensures durability and resistance to moisture and chemicals.		<b>EASY TRANSPORT OF TOOLS AND EQUIPMENT</b> – ideal for transport, due to its high mobility.
