

SiO₂ SHAMPOO

Hand-wash shampoo with quartz additive

Concentrated, nanotechnology-based hand-wash shampoo for day-to-day vehicle care. Thanks to the silicon dioxide particles, it forms an instant hydrophobic film on all external car surfaces and provides exceptional shine. It is the easiest and quickest way to protect the paintwork during washing. Low-foaming, with neutral pH and excellent cleaning properties. Protects against grime build-up and facilitates grime removal. Effectively removes contaminants resulting from normal vehicle operation. The innovative combination of surfactants enables grime and water removal as early as the washing phase. Accelerates surface drying while also making wiping easier. Leaves a subtle film to increase shine and gloss.

1:200 - 1:400

ADVANTAGES:

- CONCENTRATED AND HIGHLY EFFICIENT
- CREATES AN INSTANT WATER-REPELLENT LAYER
- LOW-FOAMING, EASY TO RINSE OFF
- PROTECTS AGAINST GRIME BUILD-UP
- ACCELERATES SURFACE DRYING
- INCREASES SHINE
