Bonnet Fresh

Bonnet Cleaner and Odour Neutraliser

APP for AD Bonnet Fresh is designed for bonnet cleaning and refreshing textile surfaces in car interiors. It effectively removes everyday dirt from fabric upholstery, seats, carpets, floor mats and other textiles, while helping to neutralise unpleasant odours. The formula was developed for quick, convenient cleaning without over-wetting the fabric. This makes APP for AD Bonnet Fresh ideal both for routine interior care and for professional detailing work, where effectiveness, short working times and getting surfaces ready for use again quickly are what count.

Bonnet cleaning is a low-moisture method of cleaning car upholstery in which the cleaning agent is worked into the fabric and the loosened dirt is picked up mechanically with a microfibre pad. It effectively refreshes and deep-cleans upholstery while keeping drying times short.
