# Clay & Bug Sponge

Double-sided sponge for paint decontamination

This double-sided paint decontamination sponge is a practical and versatile tool designed for thorough cleaning of painted surfaces. It is ideal for both detailing and everyday car care. One side of the sponge is designed for clay bar treatment, allowing you to remove contaminants such as tar, resin, road grime and metallic residues. With its help, you can achieve a perfectly smooth paintwork surface, ready for the next stages of care, such as polishing, waxing or applying protective coatings. The other side features a mesh designed to remove insect residue, which facilitates quick cleaning of windows, headlights and the bodywork, helping to restore the surface's aesthetic appearance. The ergonomic shape and durable materials make the sponge comfortable to use and suitable for repeated use, ensuring a comfortable experience when caring for your vehicle.

\*The clay bar is designed for wet use; do not use with APP M TAR Remover

## ADVANTAGES:

- A REVERSIBLE DESIGN THAT ENHANCES FUNCTIONALITY WHEN CARING FOR YOUR CAR
- A MESH DESIGN THAT MAKES IT EASIER TO REMOVE INSECT RESIDUES AND ROAD GRIME
- ERGONOMIC DESIGN FOR A COMFORTABLE GRIP WHILST WORKING
