

GRAPHENE COAT

Graphene Coat

Advanced ceramic-graphene coating enriched with carbon nanotubes for care and maintenance of exterior painted surfaces. Provides an extremely resistant protective coating. Creates a barrier resistant to abrasion and aggressive chemicals. The product provides excellent water repellency, creates a barrier against dirt making surfaces easier to wash and clean, enhances the depth of color and visibly darkens the paint. Protects a surface against UV radiation. Durability of the obtained coating with one layer is up to 3 years and even 5 years with two layers. To increase the effect, it is recommended to use it together with APP for AD Graphene Booster.

ADVANTAGES:

- EXCELLENT WATER REPELLENCY
- COAT DURABILITY UP TO 5 YEARS
- INCREASES GLOSS AND DARKENS THE PAINT
- ENHANCES COLOR DEPTH
- EXTREMELY RESISTANT PROTECTIVE COAT
- PROTECTS SURFACE AGAINST UV RADIATION
