

APP No. 231723

NTools Cyclone Gun - This pneumatic cleaning gun without a hose reel is a professional tool designed for use in car detailing and paintwork, specifically for intensive blowing and drying of surfaces. Equipped with a rotating nozzle, it generates a concentrated jet of compressed air that effectively removes dust, sand, water and other contaminants, even from hard-to-reach areas such as crevices, air vents and vehicle interior components. The unit is designed to work with a compressor, and the absence of a chemical tank allows it to operate in 'dry' mode. This makes it ideal for the rapid and effective removal of contaminants and the drying of cleaned components.

TECHNICAL SPECIFICATIONS:

| | |
|----------------------------|----------------------------|
| Air consumption | 120-160 L/min |
| Maximum operating pressure | 8 bar |
| Free speed | 5000 RPM - 7000 RPM |

REPLACEMENT PADS INCLUDED:

Technical specifications:

ADVANTAGES

+ HIGH CLEANING PERFORMANCE
- the swirling air stream thoroughly removes even stubborn dirt.

+ REACHING HARD-TO-REACH PLACES
- perfect for crevices, vents and nooks and crannies.

+ TIME-SAVING
- significantly speeds up the work compared to manual methods.

+ THE ABILITY TO WORK WITHOUT USING CHEMICALS
- thanks to the power of compressed air, the device effectively removes dirt using a 'dry' method.

+ VERSATILITY OF USE
- it works well in cars, garages and for cleaning various surfaces.

+ A BETTER END RESULT
- more thorough cleaning results in a higher quality of service.
