

APP No. 231724

NTools Cyclone Fusion - The pneumatic cleaning gun with a dispenser is a professional tool designed for use in car detailing and paintwork, specifically for the effective cleaning of a wide variety of surfaces. Equipped with a rotating nozzle and a cleaning agent reservoir, it generates a powerful jet of compressed air mixed with sprayed cleaning solution, enabling the effective removal of dirt, dust and deposits, even from hard-to-reach areas. The device is ideal for cleaning vehicle interiors, including upholstery, crevices, air vents and plastic components. Its well-thought-out design ensures fast and precise operation whilst optimising cleaning agent consumption and providing a high level of working comfort. The tool is designed for 'wet' use.

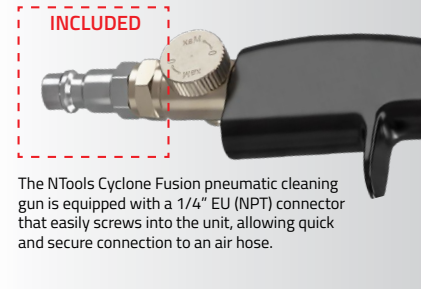

TECHNICAL SPECIFICATIONS:

Air consumption	150-160 L/min
Maximum operating pressure	8 bar
Free speed	5000 RPM - 6000 RPM
Tank capacity	1L

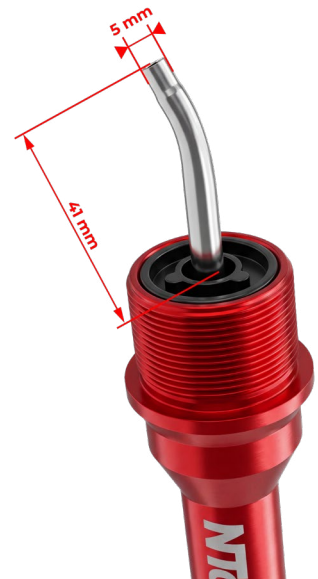

INTERCHANGEABLE TIPS INCLUDED

Technical specifications:

The NTools Cyclone Fusion pneumatic cleaning gun is equipped with a 1/4" EU (NPT) connector that easily screws into the unit, allowing quick and secure connection to an air hose.

ADVANTAGES

+ HIGH CLEANING EFFICIENCY
- The combination of compressed air and a cleaning agent makes it possible to remove even persistent dirt

+ PRECISE DISPENSING OF CLEANING AGENT
- enables controlled fluid consumption and reduces fluid loss

+ REDUCTION OF MANUAL LABOUR
- reduces the need for manual scrubbing and the operator's effort

+ EVEN DISTRIBUTION OF THE PRODUCT
- ensures even coverage and a better finish

+ VERSATILITY OF USE
- allows you to use different cleaning products suited to the type of dirt

+ IMPROVED SURFACE HYGIENE
- enables the use of disinfectants
