

APP No. 250042, 250043

APP Angle - A set of flat, bevelled brushes made of high-quality bristles

Thanks to the bevelled shape of the bristles, the brushes allow for precise application of preparations in hard-to-reach places – ideal for edges, corners, gaps and car body details.

Made of high-quality bristles, the brushes are resistant to solvents, varnishes, adhesives and other chemicals used in painting. The wooden handles guarantee comfort, stability and full control during work.

FEATURES:

HIGH-QUALITY BRISTLES

durable, resistant to workshop chemicals, ensures even distribution of materials

FLAT SHAPE, CUT AT AN ANGLE

enables precise painting of edges, profiles and hard-to-reach areas

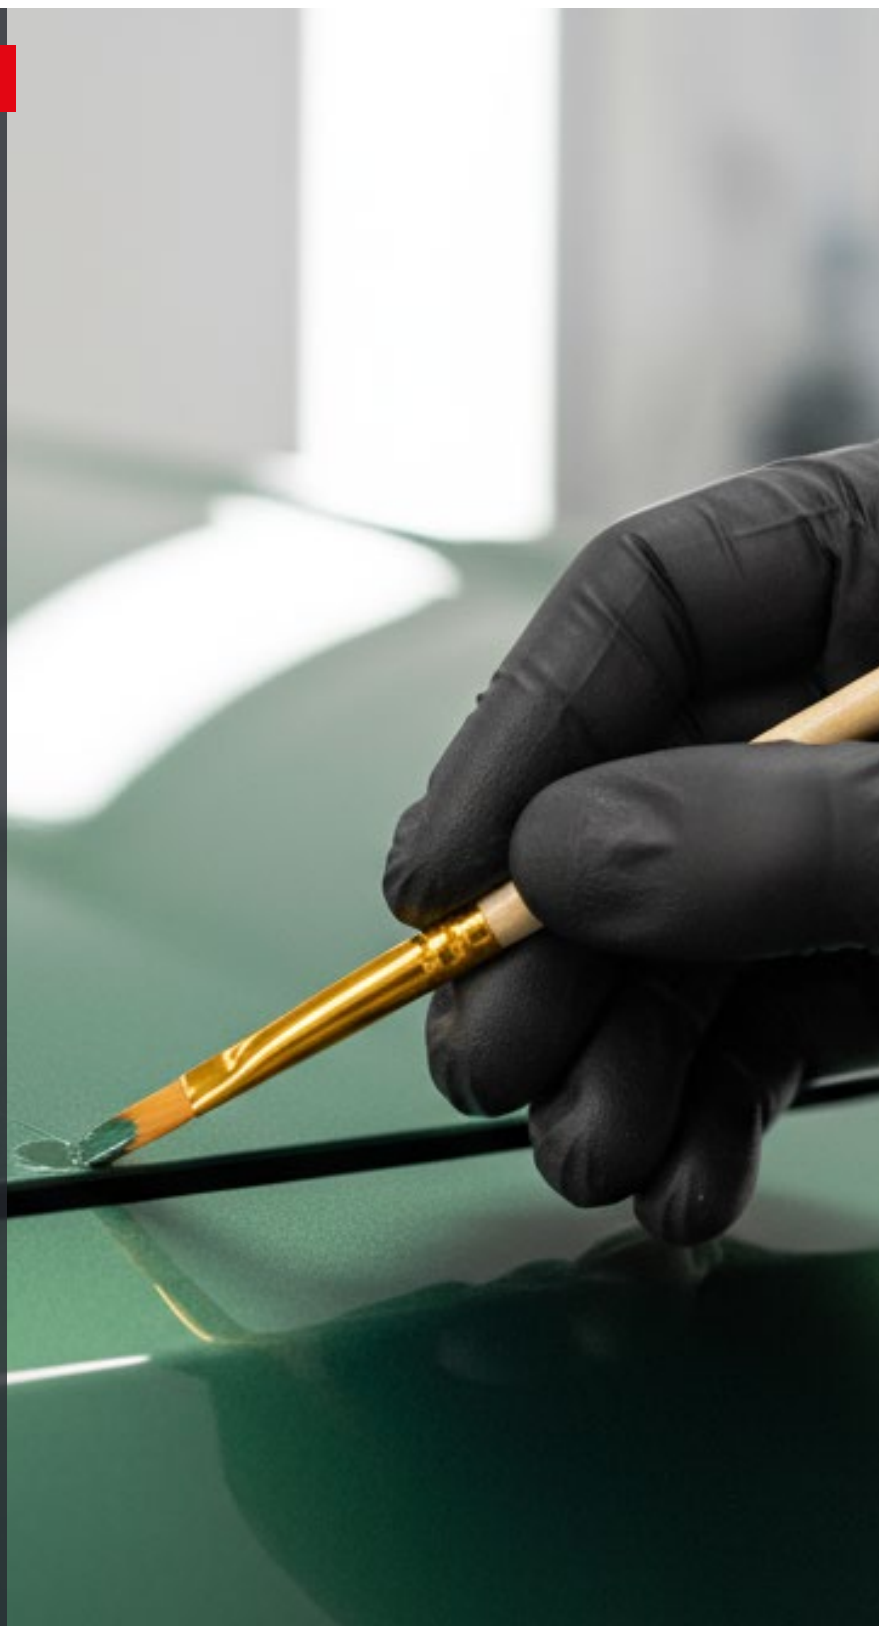

WOODEN HANDLE

ergonomic, well-balanced, provides a secure grip

UNIVERSAL APPLICATION

ideal for painting, maintenance and detailing work

Sets:

APP No. 250042
6 pcs.

APP No. 250043
3 pcs.

APPLICATION:

- Application of primers and varnishes
- Application of anti-corrosive and preservative agents
