

APP No. 250304, 250305

APP STS - A putty knife designed for the application of putty. Very durable and flexible, suitable for working on flat and curved surfaces. Made of a special PP/PE copolymer, which is characterised by high strength, flexibility and will not scratch the surface being worked on. The spatula has a flat upper edge for a firm grip and a very flexible tapered lower edge (flattening), which allows the spatula to be very smoothly, accurately and securely applied to the workpiece.

ADVANTAGES

+ COPOLIMER = 100% QUALITY

- an extremely scratch-resistant material with high elasticity and hardness, guaranteeing identical properties of each piece.

+ PORTABLE SHAPE

- the flat top edge facilitates a secure grip.

+ ADJUSTING THE SHAPE OF THE PLANE OF THE WORKING PLATE

- achieved by shaping the spatula, which is 0.7 mm thick at the base and tapers down to 0.3 mm.
