NTools RDS 4 / RDS 4.1 Reamer Fluting Cutter For Boron Steel

NTools RDS 4 / RDS 4.1 – Reamer with triple blade, made from cobalt steel, additionally covered with special titanium nitride coating (HSCO/TiALN) to improve strength and resistance to high temperature. Thanks to this structure it is a good solution for cutting/drilling of car body welds of the following brand: Daimler-Chrysler, Mercedes, BMW, Opel, Porsche, Audi, Honda, Volvo, Peugeot, Citroen.

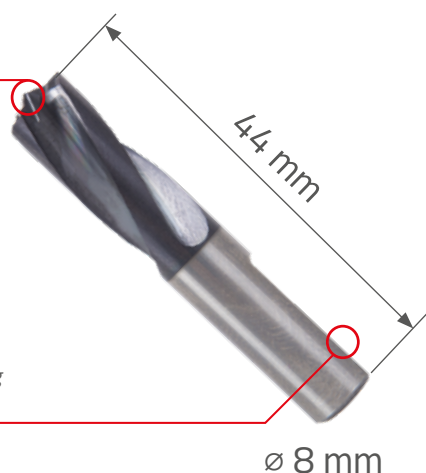

3 cutting blades

- Cutter with three cutting blades

Cutter arbour

- to ensure rotation during assembly (tightening)

Reamer purposed for boron steel also works with:
NTools PRD (APP Nr 139520N)
Pneumatic reamer
for spot welds with pressure incl
with cobalt-steel reamer

ADVANTAGES

+ CUTTER WITH THREE CUTTING BLADES	+ ELIMINATED UNNECESSARY CENTRE PUNCHING	+ DURABILITY IMPROVED THREE TIMES COMPARING TO TRADITIONAL CUTTERS
+ HIGH CUTTING SPEED	+ SPECIAL TILAN COATING - that ensures extraordinary resistance to oxidation	+ PACKED INDIVIDUALLY - to facilitate storage
