NTools TAB

Round convex mushroom

NTools TAB - is a series of durable plastic round convex mushrooms with diameters from 11 to 32 mm. The slightly convex design of the NTools TAB allows even distribution of forces on the repaired surface when pulling out a dent. The corresponding mushroom diameters enable NTools TAB to be precisely matched to the type of dent in the body surface.

ADVANTAGES

PRECISE ADHESIVE APPLICATION

- thanks to mushroom diameters from as little as 11 mm

SLIGHTLY CONVEX (SPHERICAL) SHAPE

- distributes the forces evenly over the surface when pulling out the dent

PULLER ADHESIVE TECHNOLOGY

- modern paintless dent removal technology

EASY TO USE

- allows the area of the "sharp" dent, behind the "bottom" of the dent, to be pulled out

COLLABORATION WITH TOOLS

- thanks to reinforced plug/adaptor contact area with puller or inertia hammer (NTools PNK, NTools MB 400)

MADE OF DURABLE PLASTIC

APP No.	Product name	Diameter	Quantity
351700	NTools TAB 5 - Round convex mushroom	d16	1 piece
351701	NTools TAB 9 - Round convex mushroom	d21	1 piece
351702	NTools TAB 6 - Round convex mushroom	d32	1 piece
351708	NTools TAB 13 - Round convex mushroom	d11	1 piece
