

NTools SBF KPL

Set of metal pliers in case

APP No. 360797

NTools SB KPL – Tinsmith pliers set in a case is intended for tinsmith workshops, welding and industry. The pliers are adapted to operations in restricted space, enabling constant clamp and precise matching of connected car body parts during body works.

The jaws are equipped with the adjustment option and lever mechanism for clamp locking. They are made of chrome-molybdenum alloy steel.

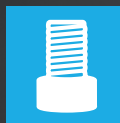

FEATURES:

5 different types:
W, J, JJ, L, LL, T.

Clamping mechanism
with lock.

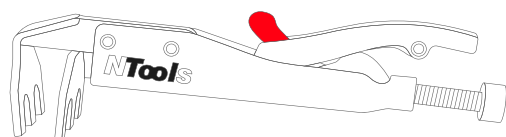

Adjustable working range
(squeeze).

Construction:

NTools

APP Nr 360791

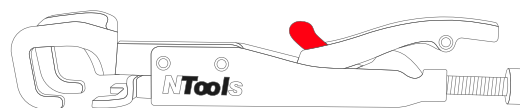

NTools SB W

For making opening welds. For use on door openings, side panels, lap joints and folded sheets.

Jaw width	57 mm
Working range adjustment	0 - 17 mm
Total length	205 mm

APP Nr 360792

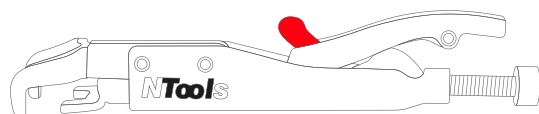

NTools SB JJ

For joining parts with turned-up edges.

Jaw width	45 mm
Working range adjustment	0 - 15 mm
Total length	235 mm

APP Nr 360793

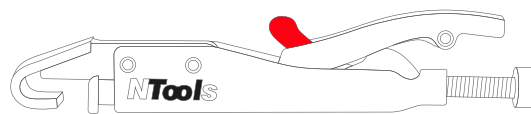

NTools SB LL

For joining elements with an edge turned up on one side. When attached to the rim of the door opening, it allows the door to be closed and the elements to fit together. For use on thresholds, wheel arches, side panels and curved sheet metal.

Jaw width	43 mm
Working range adjustment	0 - 20 mm
Total length	215 mm

APP Nr 360794

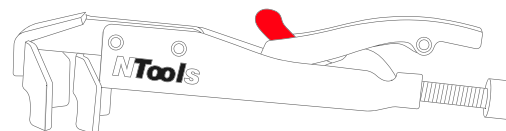

NTools SB J

For joining elements with an edge turned up on one side.

Jaw width	17 mm
Working range adjustment	0 - 15 mm
Total length	215 mm

APP Nr 360796

NTools SB T

For clamping two pieces of sheet metal of equal thickness at 90 degrees.

Jaw width	48 mm
Working range adjustment	0 - 15 mm
Total length	205 mm

NTools SBF KPL

Set of metal pliers in case

USE		
BODY SHOPS AND SERVICES	WELDING PLANTS	METALWORKING INDUSTRY
		

ADVANTAGES

WIDE RANGE OF USE

thanks to 6 different types: J, JJ, L, LL, T i W, which allow for a precise fit of the elements to be joined.

SLIMLINE DESIGN

designed to be used in narrow and hard-to-reach spaces.

LEVER MECHANISM WITH LOCK AND CLAMP ADJUSTMENT

for quick and easy clamping and releasing with one hand.

SOLID CONSTRUCTION

made of heavy-duty heat-treated steel and durable finish - resistant to weld spatter.
