NTools CSD

Ceramic disc 14+1 holes

NTools CSD – Velcro Abrasive Discs are a blend of high quality ceramic abrasive grain and silicon carbide on a reinforced paper backing. Durable, open-coat ceramic abrasive grain bonded with synthetic resin, coated with stearin, enables efficient work on soft and dusty surfaces as well as on materials of considerable hardness, e.g. for forged carbon steels, high-nickel and high-cobalt alloys and laminates with glass fiber. Abrasive discs have 14+1 holes and are intended for dry operation only.

APPLICATION

Aluminium ■■■■■■■■■■■	Colored metals ■■■■■■■■■■■	Stainless steel ■■■■■■■■■■■	Steel ■■■■■■■■■■■
Paints and varnishes* ■■■■■■■■■■■	Wood ■■■■■■■■■■■	Plastic ■■■■■■■■■■■	Laminates ■■■■■■■■■■■

*varnishes with the addition of an elasticizer 9/10

ADVANTAGES

<p>+</p> <p>STEARATE COATING - gives high resistance to clogging</p>	<p>+</p> <p>EVEN AND HARD GRAIN BLUNT RESISTANT</p>	<p>+</p> <p>AGGRESSIVE AND EFFICIENT WORK IN ALL GRADATIONS</p>
<p>+</p> <p>SEED FIXING - high resistant, high temperature and heavy loads.</p>	<p>+</p> <p>STRONG BACKING RESISTANT TO TEARING</p>	<p>+</p> <p>LONG WORKING TIME</p>
