NTools WFM 50

Fabric filter bag for dust

NTools WFM 50 - Professional cloth filter bag for **NTools VC 50E/EP** automatic electric switch-off dust extractor. Reusable sack made of non-woven polypropylene (PP) with capacity of **50 L**. The sack is sewn with textile thread and the seams recessed inside. At the top, it has a **58 mm** diameter inlet opening with a rubber seal set in a **94 mm x 94 mm** square plastic mount. The underside has an opening for emptying the dirt, secured by a sliding plastic clamp.

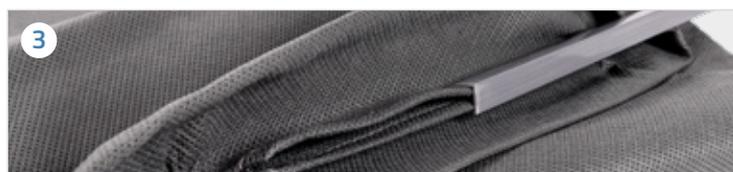

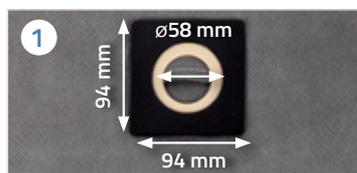

ADVANTAGES:

- 1 INLET OPENING WITH RUBBER SEAL**
Prevents dust from getting into the dust extraction tank,
- 2 TIGHT NONWOVEN POLYPROPYLENE (PP) MATERIAL**
has high tensile and tear strength, retains most of the dust and allows air to pass through, is flame retardant,
- 3 REUSABLE**
thanks to an opening for emptying the dirt, which is closed with a sliding clamping strip.

750 mm

50 L

440 mm
