

APP No. 06FLD, 06FLK, 06FLW, 06FLU

NTools Fast LOCK – is a perfect solution for all applications where small items and hard-to-reach areas have to be treated.

A specially designed holder provides a very quick tool change in less than 5 seconds.

THE SYSTEM INCLUDES:

- Blue sanding disc
NTools Fast LOCK KS
(APP No. 06FLK0040S/B-06FLK0120S/B)
- Abrasive disc
NTools Fast LOCK DS
(APP No. 06FLD0002S/B)
- Non-woven abrasive
NTools Fast LOCK WS
(APP No. 06FLW0001S/B - 06FLW0003S/B)
- Backing plate with a thread
NTools Fast LOCK TM
(APP No. 06FLU0002S/B)

Types of tools and their use:

PRELIMINARY

NTools Fast LOCK KS

Blue sanding disc ø 50 mm

APP No.
06FLK0040S/B-06FLK0120S/B

Abrasive discs covered with zirconium on a canvas lining intended for machining of all common used metals. Grain gradation range P40 - P120. Thanks to application of zirconium grit, its abrasive characteristics and efficiency are much higher in comparison to conventional electro corundum grain.

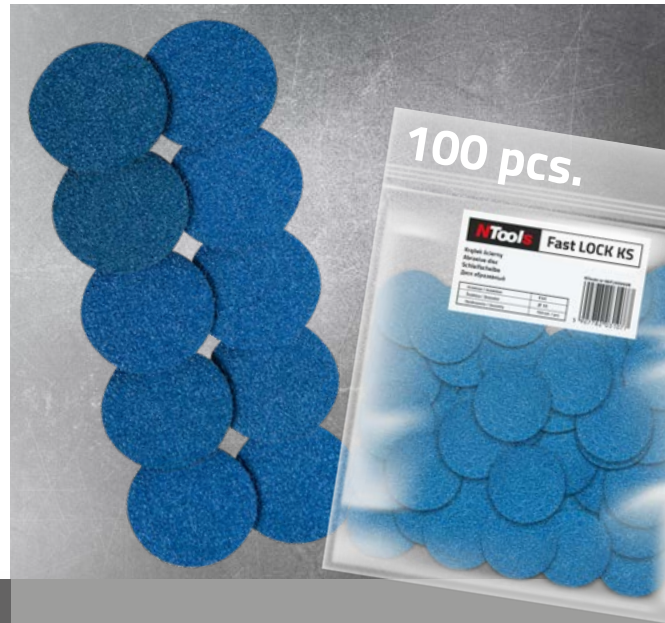

A tool for aggressive grinding of steels and welds, removal of large excess materials during a coarse and intermediate machining and removal of spatter during welding.

extremely abrasive

four gradations P40, P60, p80 and P120

maximum rotation speed: 20000 RPM

available by 1 piece and in a bulk pack of 100 pieces.

COARSE MACHINING

NTools Fast LOCK DS

Abrasive disc ø 50 mm

APP No.
06FLD0002S/B

An open non-woven structure allows for aggressive treatment without lumping and gouging.

Thick nylon fibre and very coarse grain is designed for: removal of various types of coatings including sealants, rust, weld spatter and scale, to be used before and after welding in order to prepare and clean the surface.

does not clog up

extremely abrasive

flexibility and versatility of use

maximum rotation speed: 20000 RPM

available by 1 piece and in a bulk pack of 25 pieces.

Types of tools and their use:

FINISHING WORK

NTools Fast LOCK WS

Non-woven abrasive \varnothing 50 mm APP No. 06FLW0001S/B - 06FLW0003S/B

Non-woven abrasive material resistant to tearing by sharp edges, smoothing and cleaning without smudging.

Available in three grit variants:

- fine-grained (blue colour)
- medium-grained (red colour)
- coarse-grained (brown colour)

Intended for finishing work including removal of rust and coatings, cleaning castings, removal of contaminants and old seals, smoothing surface imperfections.

high elasticity

open fibre structure prevents clogging up the cloth

maximum rotation speed: 20000 RPM

Available by 1 piece and in a bulk pack of 50 pieces.

NTools Fast LOCK TM

Backing plate \varnothing 50 mm with a thread \varnothing 6 mm

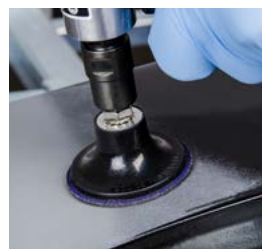

NTools No. 06FLU0002S/B

Backing plate with thread NTools Fast LOCK System.

one holder for all tools for their quick replacement

compatible with 3M Roloc and Norton Speed-Lok

maximum rotation speed: 30000 RPM

Available by 1 piece and in a bulk pack of 25 pieces.

A grinder designed for NTools Fast LOCK:

NTools PSK (APP nr 139102N)
Angle grinder

The angle mini-grinder is designed to grind metal, stone, wood and plastic. Perfect for sheet metal work. High-quality pneumatic motor. 6 mm thread holder. The set includes two wrenches and a compressed air connector.

ADVANTAGES

+
VERY FAST TOOL CHANGE REDUCING
downtime compared with tools with conventional mounting

+
ONE HOLDER - SEVERAL DIFFERENT TOOLS

+
ABILITY TO WORK IN HARD-TO-REACH AREAS

+
QUICK TREATMENT OF SMALL ITEMS

+
COMPATIBLE WITH NORTON SPEED-LOK AND 3M ROLOC

+
1 SYSTEM - 3 TREATMENTS
(Preliminary, roughing and finishing)
