### Product Name: APP KS-E Contact Spray

Displaces water and moisture, protects against corrosion and improves efficiency and reliability of electrical-electronic equipments of wiring systems. It keeps clean and dry the contacts, prevents oxidation, displaces water, and as a result prevents wiring faults and interferences.

Package: 400ml –aerosol  
Product and additives: APP KS-E  
Main ingredients: mixture of solvents and safe preservatives .  
Colour: clear

#### Application:

Process:

- Maintenance and care of wiring systems of automotive electric and electronic systems.
- Protection of wires, socket-contacts, plugs, terminals, sparking plugs, fuses and contacts against oxidation and formation of sulphates.

#### Properties:

- Prevents oxidation of contacts and ensures long term anti-corrosion protection.
- Protects against moisture and displaces water.
- Prevents voltage drop and earth leakage currents.
- Ensures uninterrupted current flow.
- Dissolves resins (do not apply on varnished wires and windings).

Use:

Shake or stir contents of container thoroughly for 2-3 minutes.  
Apply the preparation profusely, maintaining the distance of 10 cm and wait till action hereof. Remove any excessive amount.  
If necessary repeat the activity.  
In case of problems with engine starting spray the whole ignition system and the distribution head.  
Do not apply on varnished wires and windings –the agent contains solvents.

### Product Name: APP KS-E Contact Spray

#### Storage:

Store in closed, original containers in dry and well ventilated spaces.

Protect against freezing and temperature over 50°C.

#### Industrial Safety:

Product for professional use only.

See: labels on containers and MSDS.

User must follow locally and regionally applicable industrial safety regulations.
