Product name: STAIN Remover

Preparation for removing stains from upholstery.

| | |
|--------------------------|--|
| <u>Container:</u> | 1.0 l |
| <u>Basic components:</u> | hydrogen-treated, low-boiling oil fraction |
| <u>pH:</u> | - |
| <u>Colour:</u> | Colourless |
| <u>Density:</u> | 0.74 g/cm ³ (at the temperature of 20 °C) |
| <u>Smell:</u> | Characteristic |
| <u>Usage:</u> | A preparation intended for removing especially stubborn stains from material and chamois leather upholstery. |

Directions for use:

Apply using a sprayer or microfibre cloth. After applying the preparation, wipe up the stain and dry the cleaned surface. Repeat the procedure if necessary. When all stains are removed, perform a standard cleaning of the whole area.

Constraints: Check cleaned material colour fastness and resistance to discolouration.

Equipment cleaning: In organic solvents.

The above information complies with the current knowledge on our products and their possible applications. This guarantees no specific properties or usability in particular conditions. Users should observe guidelines and warnings provided on product labels and specified in material safety data sheets. We hold no responsibility if conditions beyond our control affect the final result of work.
