**Product name: Preparation for cleaning heavily soiled leathers,  
APP for AD Leather Cleaner Pro.  
APP No.: 220942, 220943**

A cleaning preparation designed for smooth leathers. Highly effective with safe action thanks to a mildly alkaline pH reagent (pH 8.9–9.5).

**Packaging:** 220942 – 150 ml; 220943 – 1,000 ml

**Key ingredients:** Mixture of chemical components.

**Colour:** Colourless

**Application:** Formulated for cleaning lacquered surfaces, smooth leathers and plastics. Do not use on aniline leathers with visibly open pores.

**Properties:** A powerful cleaner with a mildly alkaline pH.

**Benefits:** Cleans effectively. Efficient and easy to use. While maintaining even distribution, it does not cause stains nor streaks. Easy application and wiping.

## Usage

**Mixing ratio:** Ready-to-use product. Requires shaking before use and testing in an inconspicuous area.

**Use method:** Apply the product as a foam. Do not spray directly onto a surface to be cleaned. Feed the foam generated in a foamer directly onto a brush. Spread evenly in a circular motion on a surface to be cleaned. Immediately remove dirt emulsion that forms using a clean and dry microfibre cloth. Continue lapping until the surface is as dry and smooth as possible. If necessary, repeat the operation. Work one element at a time; it is not recommended to apply the product to two or more elements at the same time.

## Storage

Store in closed original packaging in a dry and well-ventilated room and at a temperature of +5°C to +30°C. Protect from direct sunlight.

The above information is in line with the current state of knowledge of our products and their possible applications. This does not guarantee specific properties or suitability for use under specific conditions. Observe the notes and warnings on the product labels and in the safety data sheet. We do not accept any responsibility if the final result of the work is influenced by factors beyond our control.
