**Product name: SiO₂-based Quick Detailer,
APP for AD Ceramic Quick Detailer .
APP No.: 223000.**

Silicon dioxide-based preservative. It ensures perfect hydrophobic properties, limits contamination, increases resistance to hard water stains, boosts shine and colour depth, thus increasing paint life. It can be applied on all external vehicle surfaces. Easy application and trouble-free rubbing. The obtained coating lasts up to 6 months.

Packaging:	500 ml
Product and additions:	APP for AD Ceramic Quick Detailer
Basic components:	Mixture of chemical components.
Colour:	Transparent
<u>Application:</u>	The product is intended for the maintenance and preservation of external painted, glass and plastic surfaces.
<u>Properties:</u>	It creates a transparent, smooth and slippery protective layer that lasts up to 6 months depending on exploitation conditions.
<u>Advantages:</u>	The product boosts colour depth. It forms a layer with strong hydrophobic properties, prevents the adhesion of dirt particles, thus facilitating surface washing and cleaning. It prevents the formation of stains after the evaporation of hard water (reduces the risk of “water spots”). Easy application and polishing.
<u>Substrate</u>	
Appropriate substrates.	The product may be applied on painted, glass and plastic surfaces.
Substrate preparation.	The surface should be clean, dry and degreased. Do not apply on hot surfaces. Prior chemical and mechanical decontamination is recommended to obtain better quality and durability of the coating formed.

The information presented above is in accordance with the current state of knowledge about our products and the possibilities of their application. This does not guarantee specific properties or the suitability for use in particular conditions. It is necessary to follow the remarks and warnings included on product labels and product data sheet. We shall not bear any responsibility if the final result is influenced by factors remaining beyond our control.

Product name: SiO₂-based Quick Detailer, APP for AD Ceramic Quick Detailer . APP No.: 223000.

Application

Mixing proportions. The product is ready to use.

Application. Spray the product directly onto the surface or on a dry microfiber cloth. Spread evenly on the entire element and remove the excess immediately with a clean and dry microfiber cloth. Continue polishing until transparent and smooth surface is obtained. Work on one element at a time, it is not recommended to apply the preparation on two or more elements at the same time.

Hardening 90% after 15 minutes,
100% after 180 minutes
During hardening, the product should not come into contact with water, dust and dirt.

Storage

Store in sealed original packaging in a dry and well-ventilated place at the temperature from +5°C do +30°C. Protect against direct sunlight.

OHS regulations

See: text on product labels or hazardous product data sheet.
The user is obliged to follow OHS regulations in force in a given country.
