**Product name: APP for AD Auto Gloss Quick Detailer.**  
**APP No.: 223020.**

A liquid sealant for surface maintenance. It enhances gloss and colour depth whilst extending the life of paintwork. It provides excellent water repellency. It reduces soiling and increases resistance to hard water marks. It removes dust, light dirt, fingerprints and smudges. Very easy to apply and spreads effortlessly. Suitable for use on its own or as a top coat for ceramic and graphene coatings.

Packaging: 500 ml

Product and accessories: APP for AD Auto Gloss Quick Detailer

Key ingredients: A silicone-free blend of chemical components with a neutral pH.

Colour: Colourless

Application: A product designed for the care and maintenance of exterior painted, glass and plastic surfaces.

Properties: Forms a transparent, smooth and slippery protective layer.

Benefits: Enhances colour depth. Forms a coating with strong water-repellent properties. Prevents dirt particles from adhering, making it easier to wash and clean the surface. Prevents the formation of marks caused by the evaporation of hard water particles (reduces the risk of 'water spots'). Easy to apply and buff.

## Substrate

Suitable surfaces. Can be applied to painted, glass and plastic surfaces.

Surface preparation. The surface should be clean, dry and free of grease. Do not apply to hot surfaces. Prior chemical and mechanical decontamination is recommended to achieve better quality and durability of the resulting coating.

## Application

Mixing ratio. The product is ready for use.

The above information reflects the current state of knowledge regarding our products and their possible applications. It does not guarantee specific properties or suitability for use under particular conditions. Please observe the instructions and warnings on the product labels and contained in the safety data sheet. We accept no liability if the final result of the work was influenced by factors beyond our control.

## Application.

Shake well before use. Spray the product directly onto the surface or onto a dry microfibre cloth. Spread evenly over the entire surface of the item and immediately remove any excess using a clean, dry microfibre cloth. Continue buffing until the surface becomes clear and smooth. Work on one component at a time; it is not recommended to apply the product to two or more components simultaneously. Applying further coats increases the durability of the protection. Wait at least 60 minutes between applying successive coats.

## Curing

During curing, the product must not come into contact with water, dust or contaminants.

## Storage

Store in sealed original containers in a dry, well-ventilated room at a temperature between +5°C and +30°C. Protect from direct sunlight. Protect from freezing.

## Health and Safety Regulations

See: the text on the product labels or in the

The user must comply with the health and safety regulations in force in their country.
