

APP MS 300

Fiberglass Mesh **0,5m²**

APP No. 010903

APP MS 300 fiberglass mesh made of randomly oriented fibers 50mm long bonded with emulsion binder.

Following hardening laminate features with resistance to:

- Mechanical stress
- Oscillations
- Vibration

Weight
300 g/m²

Size
1250 x 400 mm
(0,5m²)

Purposed for manual laminating with cold-curing thermosetting Polyester resin.

APP MS 300

Fiberglass Mesh 0,5m²

ADVANTAGES

Easy use

High mechanical strength

Resistance to vibration and oscillations

Perfect for repairs and to build strength

Offers very easy forming of complex shapes comparing to fiberglass fabric

MS 300 Glass Mats are used in the following repairs:

fairings for trucks, buses,	rigid laminates	laminated bumpers	boats and kayaks	caravans	campers
