

• **Textured spray varnish for plastic elements APP Bumper Paint 2 in 1 Spray**
APP No. 020811, 020812

One-component, quick-drying textured spray varnish designed for renovation work and repairs on car parts made of various types of plastic, such as bumpers, side strips and outer mirror bodies in aerosol designed for renovation of bumpers, side strips and outer mirrors made of plastic. It allows you to restore the original surface texture and gives the renovated part a fresh and original appearance. There is no need for primers or elastic agents, the varnish can be applied directly to plastic parts.

Area of use: All car parts made of commonly used plastics (except for PE).

- Key qualities:**
- well marked texture,
 - quick-drying,
 - good coverage,
 - highly flexible,
 - resistant to outside influences of mechanical or chemical nature.
