Super Black Base Coat 80-02

**Modular Special Base black base coat 80-02** offers the darkest and deepest shade of black (spectrum near the dark blue and it is the darkest shade perceived by human eye).

**Base Coat 80-02** is not included in recipes offered under APP Modular system, but may be mixed with other pigments included in APP Modular Special Base system and some additives: Magic Mist, Colour Ink, Interior Converter 80-04, Blending in Resin 80-01. To be used with APP Modular Special Base Thinner (1:1 mixing ratio).

### ADVANTAGES:

- Good hiding power (2-3 coats)
- May be used with base coats for "wet on wet" technique.
- "Super Black" among all pigments of APP Modular Special Base, provides extraordinary deep black colour,
- Broadens the offer prepared for user of Modular APP mixer,
- Facilitates work during colour mixing.
