

APP PK 800

Paint booth protective preparation

APP No. 070905

APP PK 800 Liquid is a non-flammable, colourless, odourless and high viscosity product that features with dust absorption properties. It is perfect to protect walls, windows and lighting fixtures of paint booth against dry spray and dust circulation. Upon application it forms a viscous, transparent protective layer that can be easily washed away with water. The product is biodegradable.

It is ready to use product that can be applied with a brush, roller or spray gun (fitted with 2.0 - 2.5 nozzle). Mixing with water is possible (10%), if necessary.

To ensure optimal paint booth protection we recommend use of APP F Mask.

FEATURES:

Colourless

Odourless

High viscosity

Non-flammable

Dust-absorptive properties
