

## • APP OB 10 Disposable boot covers with anti-skid soles

Disposable boot covers made from lint-free strong microporous fabric that protects against contact with dust and liquids (5 and 6 type protection).

Covers are provided with anti-skid sole that is resistant to damages and elastic top that stretches for easy on and off and provides snug fit.

Available in white colour. One-size-fits-all.

### ADVANTAGES:

- Lint-free strong water resistant microporous fabric that protects against contact with dust and liquids (5 and 6 type protection).
- Anti-skid, durable sole resistant to mechanical damages that gives good grip on slippery surface and prevents slippage.
- One size that fits any footwear.
- Provided with elastic top that stretches for easy on and off and provides snug fit.

### USE:

- Works related to painting.
- Handling chemicals and low concentration solids.
- Furniture and woodworking shops.
- Pharmaceutical and food industry.
- Works in moderately contaminated environment.
