

## • APP RN 100 STANDARD Nitrile disposable gloves CE

APP nitrile gloves provide superior resistance to a wide range of solvents and hazardous materials and offer excellent comfort. Disposable, 100% nitrile, powder-free gloves provide strong barrier and resists chemicals, are perfect for individuals allergic to rubber, reduce risk of food cross-contamination caused by cornstarch used as powder.

**Latex free, silicone free, wax free, plasticizer free, fragrance free, non-sterile reversible APP nitrile gloves.**

### ADVANTAGES:

- Additional nitrile coat ensures comfortable fit and improves dexterity
- Folded cuff ensures additional protection of wrist, fitting and strength.
- Three times improved resistance to abrasion, puncture comparison to latex of PCV disposable gloves
- Increased resistance to tear:
  - Prior use: 16 Mpa (16N/mm<sup>2</sup>)
  - Most available gloves have 14 Mpa (14N/mm<sup>2</sup>)

### APPLICATION:

- Automotive industry (garages, car paint shops)
- Transport
- Construction industry
- Chemical industry
- Electronic and precision industry
- Food processing and catering
- Gardening
- Pharmaceutical companies (laboratories)
- Health care services

The packaging perforation enables easy package opening and removal of gloves.

Reinforced fingertips (additional nitrile layer) improve grip and the user's manual dexterity.

Better protection and secure fastening at the wrist thanks to the folded cuffs.

**Class 1 Medical** (Directive 93/42/EEC)  
EN 374 EN 374  

**Cat 3** 
**CE 0120 Regulation (EU) 2016/425**

The APP nitrile gloves are manufactured in accordance with European Directive 0120 Regulation (EU) 2016/425 (class 3 – intended for protection against the highest risk level) and European standards EN420 and EN374 which ensure certified protection against microorganisms and chemical factors.
