• APP QUARTZ Q905 Extra Safe Disposable Nitrile Gloves

APP QUARTZ Q905 nitrile gloves feature with extra-thickness to ensure maximum chemical and mechanical protection, as well as comfortable use. 100% nitrile. Disposable, powder free that protect against chemicals and prevent skin irritation.

APP QUARTZ Q905 Extra Safe unsterilized, two handed gloves are free from latex, silicone, wax, plasticizers and odour.

ADVANTAGES:

- Reinforced finger tips (additional nitrile layer) that improve grip and dexterity.
- Additional protection thanks to extended cuff
- Three times more perforation and tearing resistant comparing to latex or PVC disposable gloves.
- 5 year shelf life, if properly stored.

APPLICATION:

- Automotive industry (body shops, paint shops);
- Transport;
- Building industry;
- Chemical Industry;
- Electronic industry;
- Precision production;
- Food processing and services;
- Gardening;
- Pharmaceutical industry and laboratories;
- Health care.

Perforation for easy opening of pop-up dispenser

Additional reinforcement of finger tips (additional nitrile layer) improves grip and dexterity.

Improved protection thanks to extended cuff.

CE Class 1 Medical (Directive 93/42/EEC)

EN 374 EN 374

CE Cat 3 CE 0120 Regulation (EU) 2016/425

APP nitrile gloves comply with European Directive 0120 Regulation (EU) 2016/425. Class 3 – provide protection against highest risk, as well as EN420 and EN 374 Standard that attest protection against microorganisms and chemicals.

Gloves reduce risk of food contamination with corn starch used for powdering.
