

NTools PPT

Pneumatic Band File

APP No 139300N

Professional band file compatible with endless abrasive tapes sized 10 x 330 mm.

Perfect for coarse and precise grinding.

Thanks to specific design it provides precise and efficient grinding of hard to access surfaces including curves, pipes, corners that pose a challenge for traditional grinders.

It is a perfect solution for sharp edges blunting, and thanks to head position angle adjustment it can be purposed for different uses.

Perfect for removal of welds, welding joints and grinding.

FEATURES:

3 abrasive tapes (P80/P100/P120) sized 10 x 330 mm

Tape automatic tensioning

Head angle adjustment range – 360°.

Air consumption 311 L/min.

Design:

- 1 Robust body**
Made from high quality materials that offer strength and durability.
- 2 Compact size**
Compact size and low weight ensure comfortable work also at hard to reach surfaces.
- 3 Rotary head**
Special design enables head angle position adjustment to ensure comfort during work.
- 4 Tape automatic tensioning**
Optimal tape tensioning, as well as quick and easy tape replacement without using any tools.
- 5 Rubberized handle**
Rubberized handle that ensures a secure grip during work.

Dane techniczne

pressure [bar]	6,3
Air consumption [l/min]	311
Rotational speed [RPM]	16 000
Power [kW/HP]	0.3/0.38
Air inlet	1/4"
Abrasive tape dimensions [mm]	10 x 330
Noise level dB(A) idle /operation	87/-
Air outlet	Rear
Length [mm]	284
Weight [kg]	0.8

SET INCLUDES

1. NTools PPT - Pneumatic Band File
2. Endless abrasive belts - 3 items. (P80/P100/P120)
3. APP ZL 2 - Air adapter 1/4" outer thread
4. NTools PNT 30 - Lubricating oil (30 ml)
5. User Manual + Guarantee Card

USE:

- Body & paint shops
- Woodworking shops and furniture manufacturing plants
- Grinding at hard to reach places e.g.: curves, pipes, corners and opening

ADVANTAGES

VIBRATION FREE AND STABLE OPERATION
to ensure comfortable work.

QUICK AND EASY REPLACEMENT OF TAPE
thanks to specially designed head leading the abrasive tape.

ERGONOMIC, LIGHT AND ROBUST BODY
and a rubberized handle that ensures a secure grip and operation with one hand.

TELESCOPIC TENSIONER
for abrasive tape tensioning and grinding of hard to reach surfaces.

HEAD ANGLE ADJUSTMENT
according to machined surface.
