• NTools FX1 mini Spray gun for SMART repairs

The NTools FX1 mini is a small, light and ergonomic spray gun intended for SMART type paintwork repair.

The pressure molded, aluminum body is covered with an anti-stick coating. The stainless steel nozzle and pin enable use of thinner based and water-soluble lacquers. It features nickel coated brass heads and PTFE seals. The nylon container has a capacity of 250 ml.

The spray gun operates using patented HPS technology which ensures excellent atomization and high transfer. It is available with 0,8 mm and 1,0 mm nozzles and is intended for finishing paintwork operations and for putting on primer.

The low weight and ergonomic body shape guarantee easy operation of the spray gun.

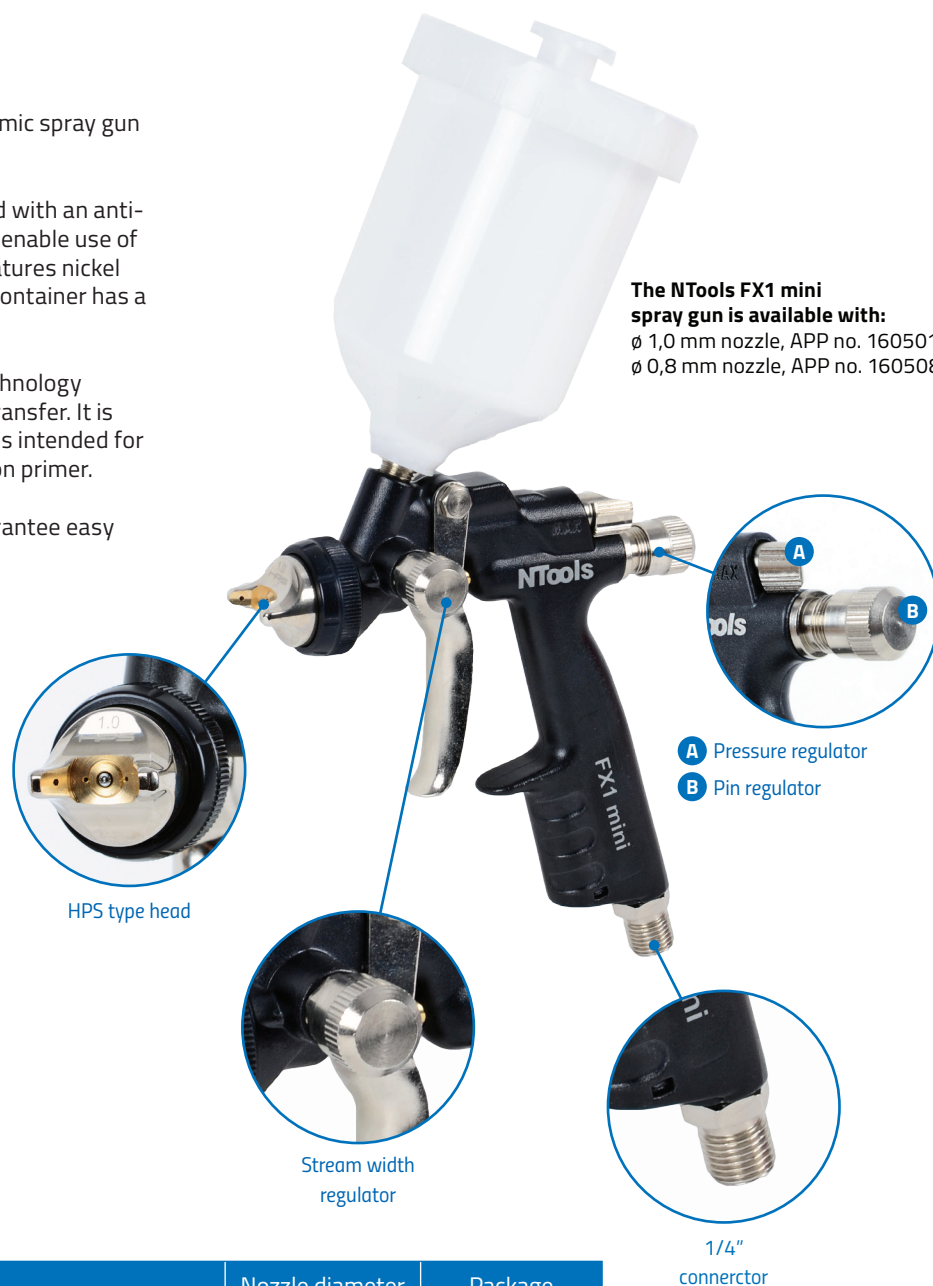

Trades in which the NTools FX1 mini finds its application include:

- the automotive industry,
- the decoration and advertising industry,
- carpentry and stucco workshops,
- renovation workshops,
- boatbuilding,
- manufacturing plants.

IMPORTANT!

The HPS head used in the spray gun in combination with the 0,8 mm nozzle ensure high precision of paint application and low consumption. This is why the NTools FX1 mini spray gun finds applications especially in spot repair, shading and painting of small elements, e.g. car rims, mirrors, door handles, skirts and spoilers.

The NTools FX1 mini spray gun is available with:
 ø 1,0 mm nozzle, APP no. 160501
 ø 0,8 mm nozzle, APP no. 160508

APP no.	Name	Nozzle diameter	Package	
160501	NTools FX1 mini	SMART repair spray gun	ø 1,0 mm	1 pc.
160508	NTools FX1 mini	SMART repair spray gun	ø 0,8 mm	1 pc.
