

NTools FX3 PLUS

Paint Spray Gun

APP No. 160633-160636

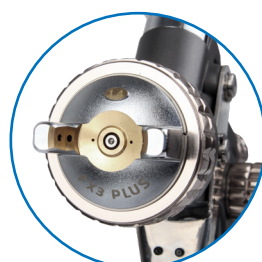

The FX3 Plus paint gun is designed for spraying metallic bases, acrylic and polyurethane varnishes, as well as primers and undercoats.

Spray unit: nozzle and head with moderate demand for compressed air. Ergonomic shape, perfect balance, simple and durable design ensure the satisfaction of every user.

The cup is resistant to chemicals used for spray painting with organic (solvent-based) and water-based products made of POM – polyoxymethylene.
