## • NTools ZMS Standard / Deluxe Polishing materials set

The **NTools ZMS Standard and Deluxe** are sets of essential polishing materials and equipment dedicated for use at paint and body workshops. The sets are configured with the purpose of facilitating all types of polishing works.

All the tools are arranged on a light and maneuverable **NTools WUS** cart, which focuses all the set's components in one place. The set is dedicated for use in paint and body workshops.

The mobility and universal character improves the operator's comfort of work and makes it easier to maintain order and tidiness at the workplace.

The **NTools ZMS Deluxe** is an expanded version of the Standard set with a large number of products.

### ADVANTAGES:

- polishing tools and equipment all in one place,
- significantly improved work comfort for the operator,
- high workplace mobility,
- limiting the loss of time related to walking and "searching" for polishing materials to a minimum.
